

EUSDR and EUREKA

- Better coordination and use of existing funding mechanisms is one of the goals of the DRRIF Working Group.
- The Danube-INCO.Net (Work Package on Scaling-up funding mechanisms) in cooperation with the Austrian EUREKA delegation has started an initiative to explore the EUREKA scheme for a Danube-wide cooperation.
- Since initial reactions of the countries were positive a dedicated Call is being discussed for 2015 and a related workshop between Danube-INCO.NET members and EUREKA National Project Coordinators and High Level Group Members as well as a dedicated EUREKA HLG/NCP Meeting will take place Thursday and Friday

What is expected from the PA7 Steering Group?

Explicit support of this initiative – in the minutes of the meeting
Wherever relevant help in promotional activities once a call will be
launched (Website, inclusion in relevant presentations with stakeholders...)
