# THEMATIC PRIORITIES

## Towards Knowledge-driven Society and Professions of the Future

- The acceleration of **green and digital transitions** will steer the transformation of **societies (including the economy subsystems)** in the **EU and Danube region**.
- We will focus on the expected transformation of societies, **the crucial role of knowledge in them, professions of the future, mobility of the labour force, brain drain and the adaptations needed** in our societies
- We will include **many stakeholders** and views into the discussion such as **higher-education and research institutions, private sector, policy-makers and civil society**
